DESIGN STANDARDS

At the April 9, 2012 Board of Directors meeting, the Board of Directors duly adopted the following design standard for window replacement. This is a standard guideline only. Design review submittal prior to any work taking place is still required. Please keep in mind, the process may take up to thirty (30) days, so please plan accordingly.

Windows should be the same size and style of current windows (continuity). Non-paintable windows are no longer approvable; paintable type windows (fiberglass, wood, composite) will be painted to match trim color (homeowner responsibility); all windows require brick molding (all four sides), size of 2-inch x 1-inch x 1 1/8-inch, painted the color of the trim (homeowner responsibility)
